

### Feedback from Current GCA Families during the 2023-2024 school year:

- My children LOVE their school, teachers and classmates. I'm a proud parent because my children are happy.
- My kids get to be in a safe, loving Christian environment while learning with top notch curriculum! GCA has been our home for 6 years. We've experienced every single age group GCA has to offer all the way from the preschool 1's up to 4th grade. We've been blessed in every single age group!! GCA has been more than what we ever hoped for in a school for our children!
- My son loves going to school! I'm grateful that he has a safe place to learn, explore, play and socialize. We were looking for a school he could grow up in, not a daycare. I'm so glad a friend told us about GCA.
- The growth in both the school and the children.
- My children have absolutely thrived emotionally, spiritually, and academically. The heart, hard work, and dedication that teachers and administrators put into this school is unparalleled.
- Our kids are always excited about learning more about Jesus Christ and worshipping him! There is good progress towards a balance between academics, opportunities for extracurricular activities, real-world experiences and fine arts.
- The community, the attention to my child, to my family, the love that I feel when we come in at any time.
- There is truly love for each child and teachers make an effort to get to know each one and to be flexible to their needs. Our children aren't just written off when they are struggling or perhaps misbehaving.

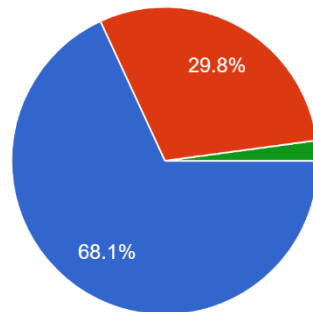

Are you satisfied with the safe and orderly environment for learning at GCA?

47 responses

For the most part, I am satisfied with GCA.
