

GCA Learning Support

Go Christian Academy's Learning Support offers a range of services to support students with a wide variety of learning needs. Every child can learn, and we provide resources to help!

In our comprehensive support program, eligible students learn strategies for success, build organizational skills, and receive coaching support in subject areas as needed. This program is primarily for students who have documented learning needs through educational testing, a 504 plan, or an IEP. Students without documented needs can still receive support by scheduling a meeting with our Instructional Coordinator to discuss learning challenges and to develop a plan for learning support.

Our developmentally responsive program provides specialized one-on-one assistance for the unique learning needs of our elementary students.

Learning Support fees are not included in school tuition.

To learn more about tutorial services and options, contact Geri Armstrong, GCA's Instructional Coordinator at 770-942-4504.
